PROFESSIONAL SUMMARY

Graduated with a bachelor's degree in information technology, majoring in Big Data with relevant experience in project and software development across the automotive and technology sectors. Experienced working as a Junior Software Engineer, HR System Executive, and Technician. Proven ability to drive efficiency, notably developing a Human Resource system that reduced manual processing time by 70% and leveraging Python, and Power BI for data-driven solutions.

EDUCATION

Bachelor's Degree in Information Technology, Big Data, 2024

UiTM Cawangan Arau, Second Upper Class

Diploma in Computer Science, 2020

Kolej Profesional Mara Beranang, Second Upper Class

CERTIFICATE

CompTIA Tech+, 2025

Oracle Academy - Database Design, 2022

CompTIA Data+, Ongoing

WORK EXPERIENCE

Junior Software Engineer, May 2025 – Oct 2025 Carsome

Sdn. Bhd.

- Contributed to the development of high-performance mobile application features utilizing Kotlin and Jetpack Compose.
- Gained in-depth, hands-on experience implementing the Model-View-View Model architectural pattern in a largescale application.
- Actively participated in an Agile Scrum development environment, managing feature delivery across defined sprints and ensuring adherence to enterprise level software development best practices.

Software Developer, Human Resource Executive, Mar 2024 – Dec 2024 Perodua

Manufacturing Sdn. Bhd.

- Led the development and deployment of a full stack Human Resource Management System over six months.
- Developed and integrated a custom AI chatbot into the HR portal to provide instant answers to employee queries, significantly improving system accessibility and user experience.
- Designed and conducted specialized training sessions for HR professionals, focusing on utilizing Power BI for data analytics and strategic workforce insights.
- Managed system policies and improved access to digital forms, enhancing overall organizational efficiency.

Technician, Jun 2020 - Nov 2020 Hakim

Raspberry Tech Solution

- Managed the daily tech service inventory, achieving 100% accuracy in stock level calculations and generating daily reports for efficient supply chain planning.
- Elevated customer satisfaction by providing swift, effective ad hoc technical repairs and troubleshooting.
- Drove sales performance by exceeding monthly sales targets of over RM100K for three consecutive months.

PROJECT

Final Year Project, Universiti Teknologi Mara Cawangan, Arau, 2024

- Engineered an AI-powered chatbot to identify early indicators of mental health issues through structured dialogue and natural language processing.
- Integrated real-time user response data into a dynamic Power BI Dashboard for immediate visualization, analytics, and decision support.

Human Resource System, Perodua Manufacturing Sdn Bhd., 2024

- Developed a comprehensive Human Resource System to enhance accessibility and efficiency using PHP, Bootstrap, JSON, SQL, and the Model-View-Controller model-based architecture; integrated Power BI for data analysis and visualization of key HR metrics; and incorporated an AI Chatbot built with Copilot Studio and Power Apps to help users easily find information.
- Involved in the Digitalization Filing Project, transforming traditional paper-based filing methods into a fully digital system.

ACHIEVEMENT

Universiti Teknologi Mara Cawangan, Arau, 2024

- Achieved Dean’s List recognition in the final semester with a GPA of 3.67.

Technician - Hakim Raspberry Tech Solution 2020

- Surpassed monthly sales targets by **achieving over RM100,000.00 in sales for three consecutive months.**

Human Resource System, Perodua Manufacturing Sdn Bhd, 2024

- Developed an HR system that **reduced manual processing time by 70%.**
- Developed an AI-powered chatbot to assist users in finding relevant resources efficiently.

TECHNICAL SKILLS

Programming & Tools: Python, SQL, Java, Kotlin, PHP, C++, Node.js, Vue.js, HTML, Django.

Data Analytics: Data Cleaning, Data Transformation, Data Mining, Exploratory Data Analysis (EDA), Statistical Analysis, Predictive Modelling, ETL (Extract, Transform, Load), Data Warehousing.

Visualization & Reporting: Power BI, Excel, Pandas, NumPy, Matplotlib, Seaborn, Plotly, Tableau (basic).

Database Management: MySQL, Oracle, Firebase, Cloud Storage, Database Design & Optimization, Power Query, Pivot.

Machine Learning: Regression, Classification, Clustering, Decision Trees, K-Nearest Neighbors (KNN), Naive Bayes, Random Forest.

Mobile Development: Jetpack Compose, Android Studio, MVVM Architecture.

Software & Tools: Docker, Postman, Jira, SharePoint, Figma, Cloudera, VMWare, Weka, Excel, PowerApp, Wordpress.

Testing & Quality: Unit Testing, Functionality Testing, User Acceptance Testing (UAT), User Experience Testing (UX).

Technical Proficiency: API Integration, ETL Pipelines, Data Management, Troubleshooting, System Installation & Maintenance.

PUBLICATION

Academic Journal Publication:

Article Title: HelpMe: Early Detection of University Students' Mental Health Issues Using a Chatbot-Integrated Dashboard **Journal:** Journal of Creative Industry and Innovation (JCRINN), Vol 10, Issue 1.
